

Features of Universal Instruction	
High-quality instruction for all students	
Universal screening for all students	
Progress monitoring for some students	
Data-based decision making	

Meet Ethan and Mr. Math

Directions: Note answers to each question as your teacher reviews the case study of Ethan and Mr. Math. Be prepared to share your answers with partners.

1. Do you think the proper universal curriculum was enacted at Bear Lake Elementary? Do you think Mr. Math’s instruction was sufficient at the universal level? What did you like? Do you have suggestions for improvement?
2. What did you think of Mr. Math’s assessment procedures at the universal level? Do you think he enacted appropriate procedures with Ethan?
3. Do you think the Bear Lake data team enacted appropriate procedures for data-based decision making? Do you have any ideas for additional considerations? Do you think they made the appropriate decision regarding Ethan?

Are you in the INSIDE CIRCLE or OUTSIDE CIRCLE? _____.
