<b>IHE</b>	Institution of higher education
<b>NHDOE</b>	New Hampshire Department of Education
<b>NTEP</b>	Networks for Transforming Educator Preparation
<b>P-12</b>	Preschool through grade 12

## NH's Learner-Responsive Definition For Beginning Educators

A learner-responsive educator is one who is ready on day one of his or her career to **model and develop** in students the knowledge, dispositions, and skills they need to be life-long learners. This includes the ability to think critically and creatively, to apply content to solving real world problems, to foster an interdisciplinary perspective, to collaborate and work in teams, and to take ownership of their own learning.

More specifically, learner-responsive educators care deeply about the whole child and share responsibility in the development and growth of all learners. They have **deep knowledge of their content and how to teach it, meeting the differing needs** of their students. They **hold them to high expectations**, and personalize **learning** to ensure each learner is supported. They **motivate, and actively engage students in learning**; they **design, interpret, and use multiple forms of student assessment and data** to monitor progress and inform instruction. Learner – responsive educators reflect, **continuously improve, collaboratively and individually problem solve**; and they **demonstrate a capacity for leadership**.
