Embedding High Leverage Practices into Field Experiences

Lauren Zepp & Elizabeth Sikora
Research Base

- Chronic and severe shortage of qualified special education teachers (Boe, 2014; U.S. Department of Education, 2016)

- Increased demands on special educators, and subsequently teacher preparation programs (Leko et al. 2015)

- Clear need for innovation in teacher preparation to address this issue and produce quality special educators.

- High Leverage Practices (HLPs, McLeskey & Brownell, 2015) have been used to restructure coursework (Maheady et al., 2019; Nelson et al., 2021; Windschitl et al., 2019), but a gap between coursework and field experiences persists.

- Structured field experiences aligned with HLPs can bridge this gap by enhancing preservice special educators’ capacity to use HLPs through practice-based opportunities and field experience (e.g., Maheady et al., 2019)
Step 1: Link Professional Standards

HLPs for Students with Disabilities

- Twenty-two practices focused on:
  - Collaboration
  - Assessment
  - Social/Emotional/Behavioral
  - Instruction

University of Wisconsin–Madison Educator Performance Standards

- Learner & Learning Environment
- Planning
- Engagement & Instruction
- Assessment
- Professionalism & Ethics
Step 2: Align with Coursework

- Mapped HLPs and performance standards onto course sequence

- Identified overlapping areas to target during field observations
  - Ex.) Focused on assessment and HLPs 4 & 5 in December to correspond with culmination of assessment course

- Field supervisors included on instructional teams for reading methods, inclusive math methods, and classroom management courses
Step 3: Pre-Assessment

Instructions

This self-assessment is composed of statements targeting the HLP areas of practice: Collaboration; Assessment; Social/Emotional/Behavioral, and Instructional.

Residents should respond to the probes across the HLPs to indicate their understanding and use of HLPs in their classrooms using the following scale:

1 = I am unfamiliar with this principle or element.
2 = I believe this concept and/or skill is important but do not yet understand how to apply it in my classroom.
3 = Making progress. I am just beginning to understand how to apply this skill to my work.
4 = I can apply this skill to my work with some confidence.
5 = Mastered. I already apply this skill to my work and have noted improvements in student learning.

I problem-solve with my colleagues using data to make decisions about the services and approaches to use to support students.

1  2  3  4  5

I create lessons where student outcomes are clear, measurable, ambitious, attainable, and actionable.

# Step 4: Develop Scaffolded Supports

<table>

</tbody>
</table>
Step 5: Observe Fieldwork

Virtual Supervision

- Pinpoint moments of practice that aligned with HLPs
- Preservice and cooperating teachers watched instruction and saw feedback aligned with targeted HLPs simultaneously
- Future research and practice could include opportunities for peer observation
### Observation 1 - Focus: Learner and Learning Environment

**HLPs: 1, 7, 14, 18**

<table>
<thead>
<tr>
<th>Lesson Plan (link here)</th>
<th>Date Uploaded to GoReact:</th>
</tr>
</thead>
</table>

**Post Observation Written Reflection (adapted from Soslau & Alexander, 2021):**

Choose at least 1 prompt to respond to.

1. How did your students feel throughout the lesson? How do you know? Is that what you hoped for? How did your students’ feelings and reactions impact your decision making?
2. What personal teaching and relationship building strengths and characteristics do you have? How can you use these to support student learning and well-being?
3. How does your current teacher identity contrast with the teacher you hope to become? How will you know you are closing the gap? What activities will you engage in to close the gap when you are a full-time practitioner? What can I do to best support you?

</thead>
</table>

| Debriefing Meeting | Date: |

**Notes:**

*Model how to write a narrative around this lesson as an artifact*

- Which UW Performance Standards and High Leverage Practices did you demonstrate strength with through this lesson?
- How would you describe the connection between this lesson and the standard and HLPs you identified?
- What makes this lesson a significant moment in your practice?
Step 7: Conduct Evaluation

Focus 4: Assessment

Teachers create and implement meaningful assessments and use assessment results to inform instruction, communicate with parents and others, and provide feedback to learners to guide their future performance and learning.

Describe the pre-service teacher’s work, including strengths and areas of growth, in relation to the area of Assessment.

Long answer text

Please rate the frequency to which the pre-service teacher uses the following high-leverage practices:

<table>
<thead>
<tr>
<th></th>
<th>Infrequently</th>
<th>On occasion</th>
<th>Often</th>
<th>Consistently</th>
</tr>
</thead>
<tbody>
<tr>
